# WellHorse Leisure

***Meets NRC and BASF recommendations***

# WellHorse Leisure

- **WELLHORSE LEISURE is supported by 50 years of scientific research into what individual horses and ponies require and is formulated to meet the demands of the leisure horse.**
- **It contains every important nutrient your horse requires and meets the NRC (National Research Council) and BASF (Animal Nutrition) recommendations for vitamins, microminerals and macrominerals.**
- **In addition to vitamins and minerals, WELLHORSE LEISURE also includes a source of highly bioavailable D-Biotin (also known as Vitamin H or Vitamin B7) to support hoof growth, skin and coat condition, as well as containing an innovative protected live yeast to support a healthy GI tract.**
